

# The Great Pandemic of 2020

An Historical View from Residents of Springfield

A Project of the Springfield NH Historical Society

## WE NEED YOUR STORY

Dear Reader,

The Coronavirus Covid 19 has focused the attention of an entire planet. Entire countries and continents (with the exception of Antarctica) have been affected by the consequences of this terrible virus which caused millions of cases with more than a half million deaths worldwide. **This threat has not skipped Springfield.**

The Springfield Historical Society wants **your story of how the threat of the Coronavirus has impacted your lifestyle.** We should collect these stories not only for ourselves for today, but for **future generations of Springfield** residents. Future citizens will understand what we went through in everyday life. It might be stories about how you protected yourself from the virus, the experience of losing a loved one far or near, how you managed your time staying at home or what changed for the better or worse.

We hope you will send us your story because it means the most to you and for those who follow you.

You may also drop off a **printed or handwritten story** at the Town Office foyer.

Please send your story to:

[stories@historicalspringfieldnh.org](mailto:stories@historicalspringfieldnh.org)

Thank you,

The Springfield Historical Society
